Release announcement: ESET Management Agent 10.1.3268.0 (macOS) (hotfix)

2023-10-26 - Steef | ESET Nederland - Comments (0) - Servicing update

The main goal of this Servicing update is to provide a fix for a problem related to macOS devices connecting to ESET PROTECT Cloud and ESET PROTECT. Please note, that the issue is related only to ESET Management Agent 10.1.3267.0. In order to fix the connection issue, it is necessary to manually install and configure new ESET Management Agent version. In case you need any assistance, please do not hesitate to reach out to our support team.
