Hi Mitchell, We currently run ESET PROTECT (Server), Version 8.0 (8.0.1258.0) in our network, but haven't received any notifications within the Web Console regarding upgrading to version 8.0.19. 01 - Should we wait until the upgrade notification appears in the Web Console, or could up manually upgrade to 80.19? 02 - If we can manually upgrade to 8.0.19, is it an "in-place" upgrade, or will it prompt for all questions to be answered/completed as similar to a "initial / clean" install? Cheers, L. G.

Hi Lennox, Based on your version numbers, you already running latest. There is a difference in the version numbers (Server / webconsole and installer) Latest versions (shown in ESET PROTECT - Help - About): ESET PROTECT (Server), Version 8.0 (8.0.1258.0) ESET PROTECT (Web Console), Version 8.0 (8.0.191.0) 8.0.19 is the version of the all in one installer of ESET PROTECT. Kind regards, Steef van den Berg
