Release announcement: ESET PROTECT 9.1 (Hotfix) (Apache HTTP Proxy)

2022-08-03 - Mitchell | ESET Nederland - Comments (0) - Servicing release

We want to confirm the successful release of the hotfix for **ESET PROTECT 9.1**.

We have replaced Apache HTTP Proxy (v 2.4.53.1) with the newer version (v 2.4.54.0) due to discovered vulnerabilities in the older one.

So we have released the new all-in-one installer (.zip and .iso) and standalone installer for Apache HTTP Proxy.

Update of this component is necessary to do manually by running standalone installer or all-in-one installer on the ESET PROTECT server.

Changelog

- FIXED: Apache HTTP Proxy (v 2.4.53.1) replaced with the latest version (v 2.4.54.0) due to discovered vulnerabilities in the earlier version
