Release announcement - ESET Protect Platform integration with MS Sentinel SIEM

2024-11-13 - Steef | ESET Nederland - Comments (0) - Feature release

I would like to inform you about the release of the ESET Protect Platform integration plugin for Microsoft Sentinel SIEM.

The ESET Protect Platform is a centralized security management system with advanced threat detection capabilities designed to protect businesses from various cyber threats. Integrating the ESET Protect Platform with Microsoft Sentinel empowers users to efficiently monitor and manage threat detections while enhancing overall organization security and protection. The ESET Protect Platform data connector uses Azure Functions to connect to the ESET Protect Platform via ESET Connect API to pull detections logs into Microsoft Sentinel.

Release details:

- Release date: November, 8 2024 at 15:00 GMT
- Type: Feature Release
- Availability: Global
