2023-09-29 - Steef | ESET Nederland - Comments (0) - Servicing release

Release details

- Release date: 26th of September 2023
- Product: ESET Server Security for Microsoft Windows Server - 10.0.12014.0
- Type: Hotfix release
- Availability: Global excl. Japan

Changelog

- NEW: Azure Code Signing support.
- NEW: OneDrive Scan results are now displayed in a form of a pie chart.
- IMPROVED: Extended the scope of settings that are subject to synchronization between nodes in ESET Cluster.
- FIXED: A problem where it was not possible to start eShell under SYSTEM account.
- FIXED: A problem where execution of signed batch file through eShell was not working properly.
- FIXED: A problem where product was sending a malformed request when connecting via proxy to HTTPS update server with explicitly specified port, rendering HTTPS connection non-functional.
- REMOVED: Ability to install or upgrade ESET products on operating systems that do not support Azure Code Signing.
