Create IDS rules for client workstations in ESET PROTECT (8.x)

Steeff | ESET Nederland - 2020-12-10 - Comments (0) - ESET PROTECT On-prem

Solution

Create IDS exclusions in ESET PROTECT

1. [Open ESET PROTECT Web Console](#) in your web browser and log in.
2. Click **Policies** → **ESET Endpoint for Windows**, then click the ellipses next to the policy you want to edit and click **Edit**.

3. Click **Settings** → **Network Protection** → **Network attack protection** and click **Edit** next to **IDS exceptions**.

Add IDS rule
