

Release announcement: ESET Endpoint Antivirus/Security v8.1.2031.0

2021-06-29 - Steef | ESET Nederland - Comments (0) - Releases

This is to inform you that we have successfully published the service release of both **ESET Endpoint Antivirus** and **ESET Endpoint Security 8.1** and the installation binaries are henceforth available online on our global website and in the software repository of ESET PROTECT.

As with every endpoint rollout released after version 8.0.2039.x, it is important to mention, that once enough feedback is collected and no problems are observed with this build (30-60 days), you can expect to be informed about the readiness and schedule of the microPCU (micro Program Component Update), that will be offered to all 8.0.x endpoints depending on their individual configuration.

Change-log:

- New: WMI and Registry scanning targets added to Idle state scanning
- New: Support for Microsoft Windows 10 Multi-session and Azure virtualized Windows 10
- New: Migration between Consumer and Business products
- New: One-click advanced logging for support ticket creation
- Improved: Ignore whitespace characters in serial number parameter of Device control rules to avoid manual input mistakes
- Improved: License overuse information screen
- Improved: Uploading performance of large configuration to ESET Protect during Request configuration Client task execution
- Fixed: Inconsistency in action taken between Device control rule and log records
- Fixed: Some settings not reverted to previous state after ending Override mode
- Fixed: Override mode not enabled when assigned policy create in ESET Protect Cloud
- Fixed: Inconsistency in license expiration date between ESET Business Account and Endpoint activation dialogue
- Fixed: Error message shown after disconnecting an Bluetooth device with blocking Device control rule created
- Fixed: Missing Revert to default settings for sections in Advanced setup
- Fixed: Missing information in Action column in HIPS rules list
- Fixed: Ask me action available in Secure Browser Protected website list for managed Endpoint

- Fixed: Failed to load configuration error presented in ESET Protect when opening requested configuration with large amount of rules in list (10k+)

Build version: **8.1.2031.0**
