Release Announcement: ESET Full Disk Encryption 1.2.3.11 (Hotfix)

2021-01-04 - Steef | ESET Nederland - Comments (0) - Servicing update

let me announce that on 22-12-2020 we released a new version of our EFDE application (for Windows), versioned 1.2.3.11.

This version addresses localisation issues with UKR, PLK and JPN languages as well as minor fixes regarding hyperlinks in "Help" section of the EFDE application.

The above mentioned version is already present in ESET Protect and ESET Protect Cloud repositories. Availability is global (excl. Japan).

Changelog:

- Fixed: Localisation issues with UKR, PLK and JPN
