ESET Tech Center

Activate ESET business products using ESET Security Management Center (7.x)

Anish | ESET Nederland - 2018-09-12 - Reacties (0) - ESET Security Management Center

ssue

- Activate ESET products installed on your endpoints or server using a task in ESET Security Management Center

- This task can be used to activate all common ESET Security Management Center components including ESET Shared Local Cache and ESET Mobile Device Manager

Solution

Prerequisites:

- Make sure the necessary ports are open on your network

- Deploy the ESET Management Agent

- Install ESET Endpoint products on client computers

- Add valid ESET-issued License Keys to License Management in the ESMC Web Console

Activate ESET products using the ESMC Web Console:

ESET Security Management Center (ESMC) 7 User Permissions
This article assumes that your ESMC user has the correct access rights and permissions to perform the tasks below.

If you are still using the default Administrator user, or you are unable to perform the tasks below (the option is grayed out), see the following article to create a second administrator user with all access rights (you only need to do this once):

- Create a second administrator user in ESET Security Management Center 7.x

[View permissions needed for least privilege user access](#)

1. [Open ESET Security Management Web Console](#) (ESMC Web Console) in your web browser and log in.

2. Click **Client Tasks → All Tasks → ESET Security Product → Product Activation** and click **New**.

    Figure 1-1

    Click the image to view larger in new window

3. Type a task name into the **Name** field.

    Figure 1-2

    Click the image to view larger in new window

4. Click the **Settings** section. Click on the pre-selected license under **ESET license**.

    Figure 1-3

    Click the image to view larger in new window

5. Select a valid license from the repository and click **OK**. [Click here for instructions to add licenses in ESET Security Management Center](#).

    ### Product Activation Task on Mobile Devices:
    Product Activation Task is not possible to execute on mobile devices (**ESET Endpoint for Android**and **MDM for iOS**) with [offline licenses](#).
