## Activate ESET Dynamic Threat Defense using ESET MSP Administrator in ESET PROTECT

Steeff | ESET Nederland - 2021-04-26 - [Comments \(0\)](#) - [ESET Dynamic Threat Defense](#)

To get the license and activate your ESET security products follow the steps below:

1. [Add ESET Dynamic Threat Defense license](#) to your customer in ESET MSP Administrator.
2. [Synchronize](#) ESET PROTECT with your ESET MSP Administrator account.
3. [Run the ESET PROTECT activation task with the ESET Dynamic Threat Defense license selected.](#)

After the product is activated, create and assign policies to [enable the ESET Dynamic Threat Defense](#).
