

Deploy ESET Management Agent using Microsoft Intune / Microsoft Endpoint Manager

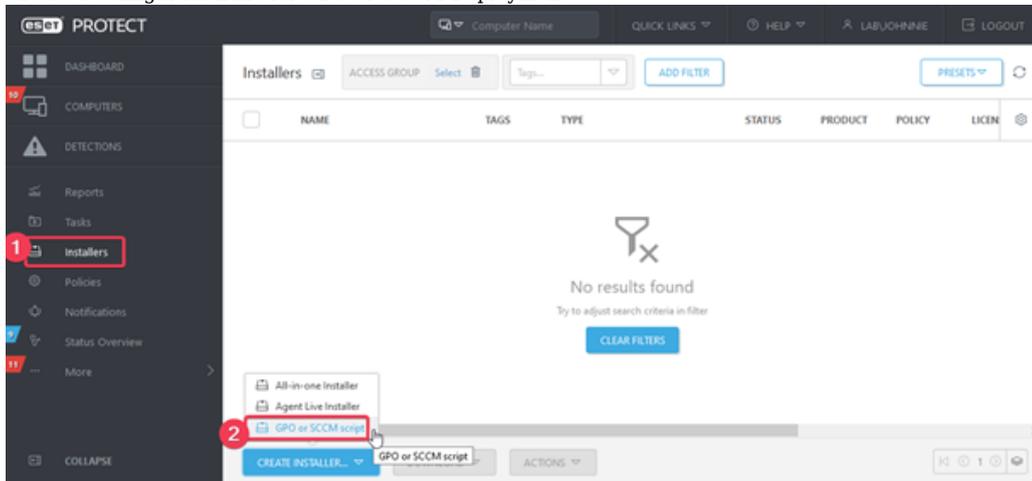

Mitchell | ESET Nederland - 2026-04-06 - [Reacties \(2\)](#) - [ESET PROTECT](#)

Prerequisites:

- Microsoft Intune environment
- Microsoft Win32 Content Prep Tool: <https://github.com/Microsoft/Microsoft-Win32-Content-Prep-Tool>
- ESET Protect or ESET Protect Cloud

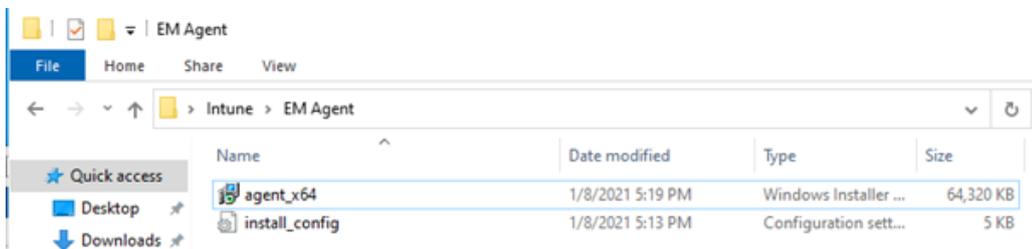

Configuration

1. Create a configuration file for GPO or SCCM Deployment

Select the appropriate certificate and enter the password if needed. Optionally configure other settings in the advanced section, save the install_config.ini file.

2. Download the EM Agent installation package:
https://download.eset.com/com/eset/apps/business/era/agent/latest/agent_x64.msi
3. Place the agent_x64.msi and install_config in the same directory:

4. Create .intunewin package by running IntuneWinAppUtil.exe:

```

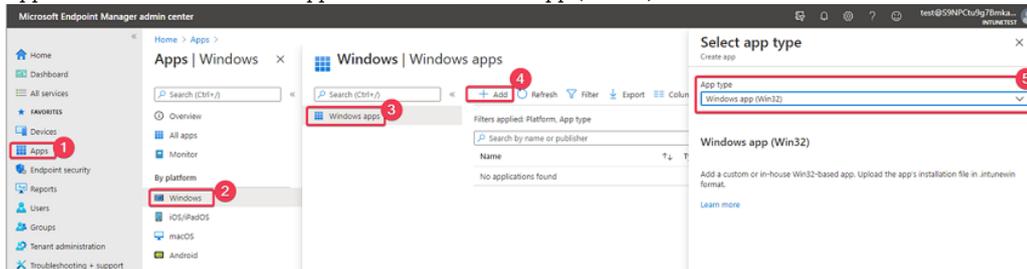

Administrator: Windows PowerShell
PS C:\temp\Intune> .\IntuneWinAppUtil.exe
Please specify the source folder: "C:\temp\Intune\EM Agent"
Please specify the setup file: agent_x64.msi
Please specify the output folder: C:\temp\Intune
Do you want to specify catalog folder (Y/N)?n

INFO File 'C:\temp\Intune\agent_x64.intunewin' has been generated successfully

[=====] 100%
INFO Done!!!

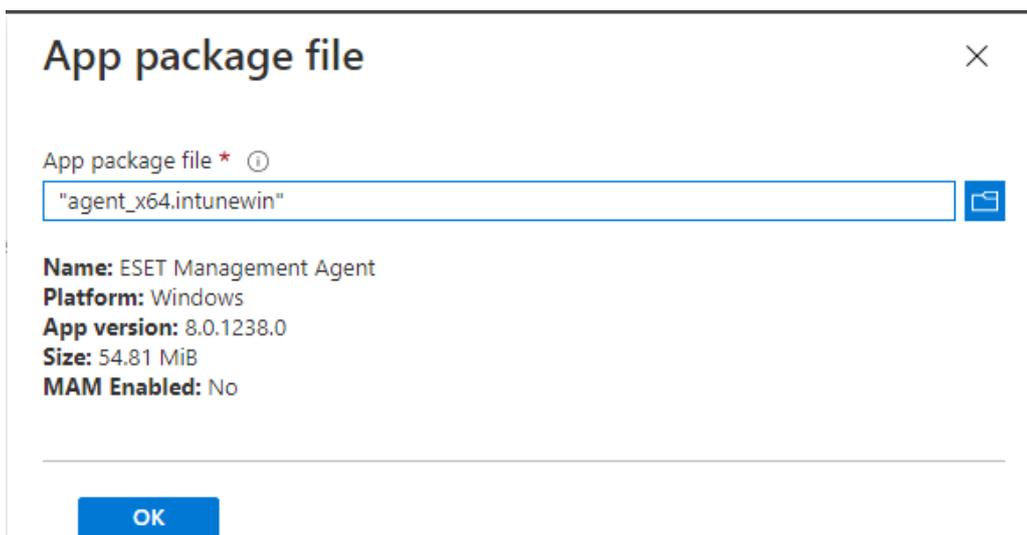

PS C:\temp\Intune>

```

5. You can now distribute the package via intune.
6. Apps > Windows > Windows apps > Add > Windows App (Win32)

7. Select the intunewin package created earlier:

8. Optionally add additional information, categories etc:

Microsoft Endpoint Manager admin center

Home > Apps > Windows >

Add App

Windows app (Win32)

1 App information 2 Program 3 Requirements 4 Detection rules 5 Dependencies ...

Select file *

Name *

Description *

[Edit Description](#)

Publisher *

App Version

Category

Show this as a featured app in the Company Portal

Notes

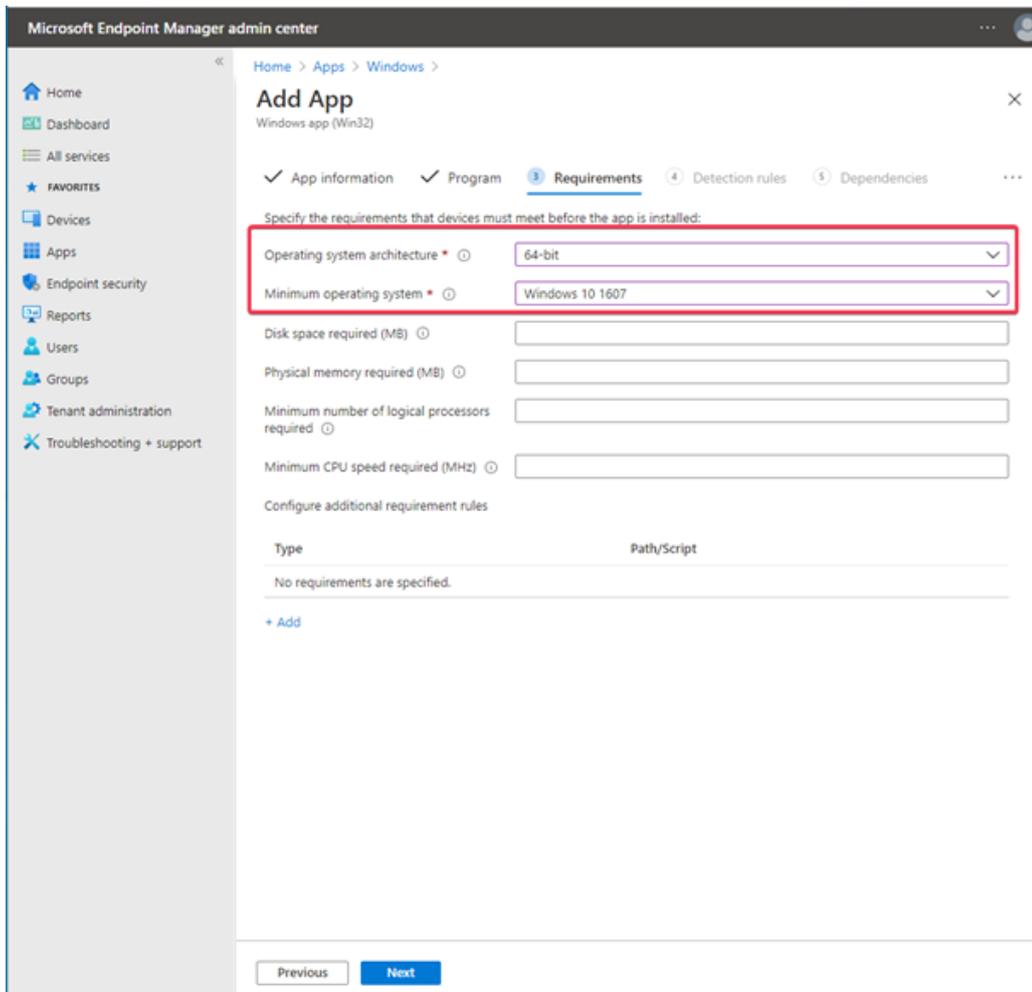

Logo [Select image](#)

[Previous](#) [Next](#)

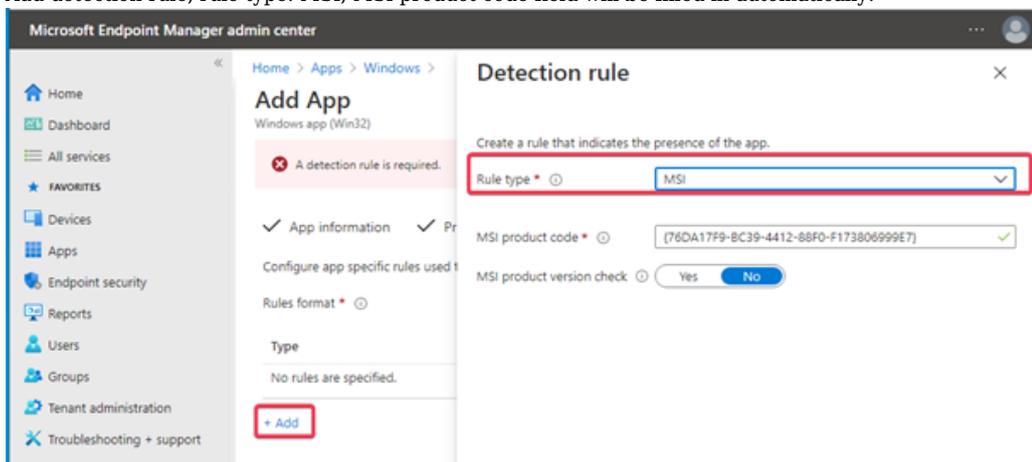

9. The "Program" tab should be pre-filled, no changes are required here.

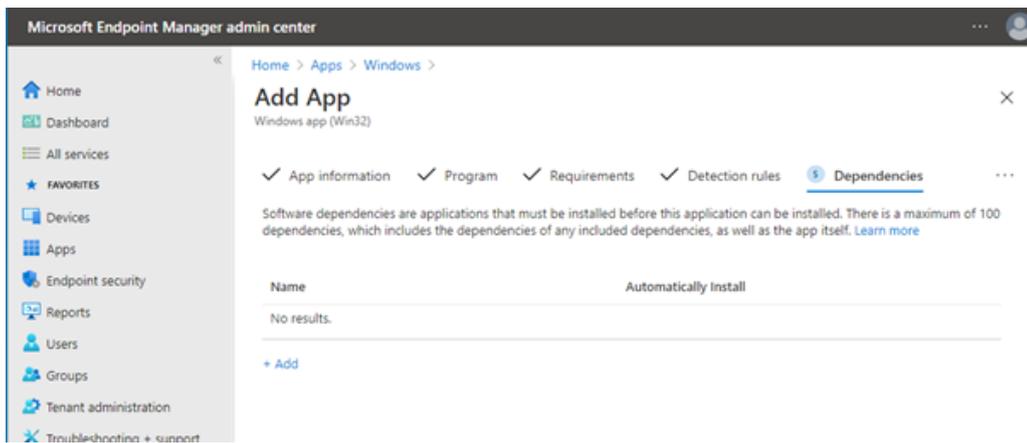

10. Select 32 or 64-bit depending on the msi file used to create the intunewin package:

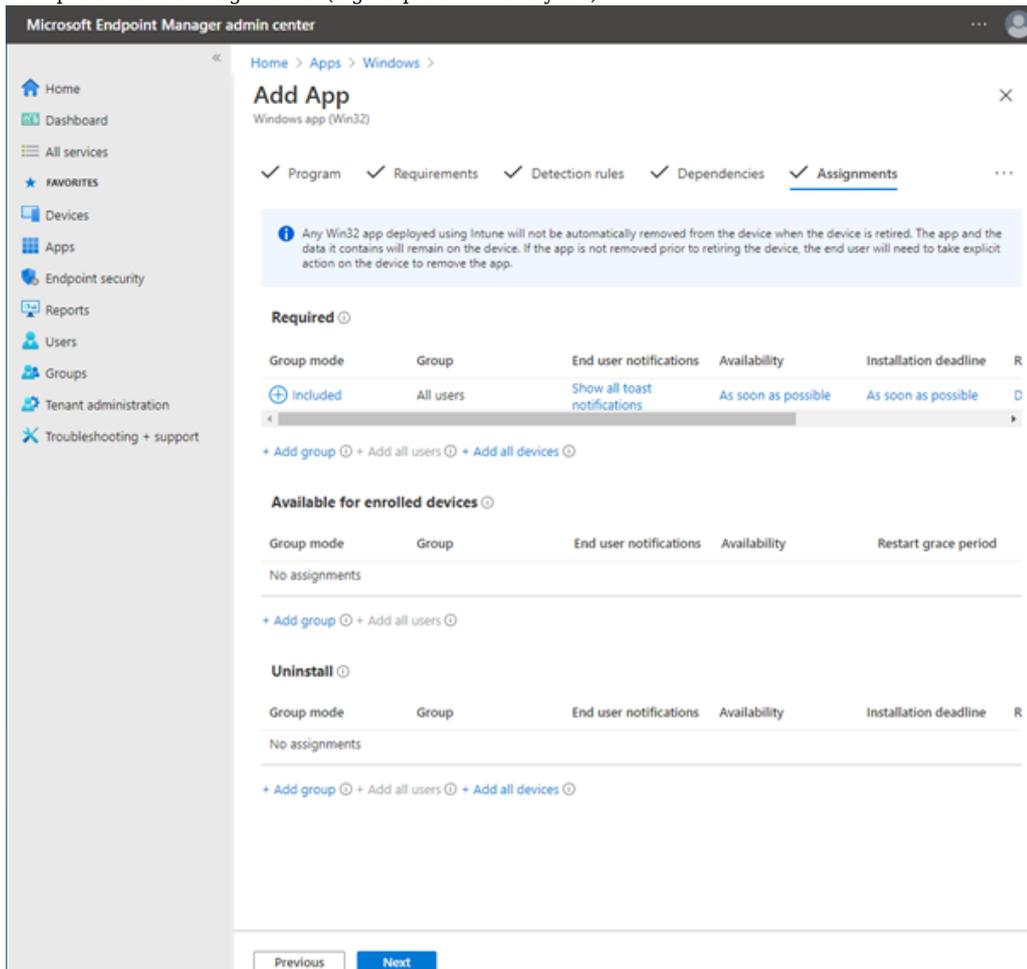

11. Add detection rule, rule type: MSI, MSI product code field will be filled in automatically.

12. Leave dependencies empty:

13. Set up the desired assignments: (e.g. required for everyone)

14. Review the settings and click “create”

15. Intune will now start installing the ESET Management Agent on managed computers.

Dank voor de duidelijke uitleg. Wat gebeurt er als de agent via ESET Protect Cloud een update van de agent wordt uitgevoerd. Gr. Fokko Brugge

Bedankt voor je comment, je kan dus de initiële installatie via intune uitvoeren, nadien zal de agent zichzelf bijwerken naar de laatste versie en altijd in lijn (compatible) blijven met de versie van ESET PROTECT Cloud.
