Solution

Renaming of ESET File Security for Microsoft Windows
ESET File Security for Windows has been renamed as ESET Server Security for Microsoft Windows Server.

Installing a different File security product?
Click for instructions to install other ESET server security products:

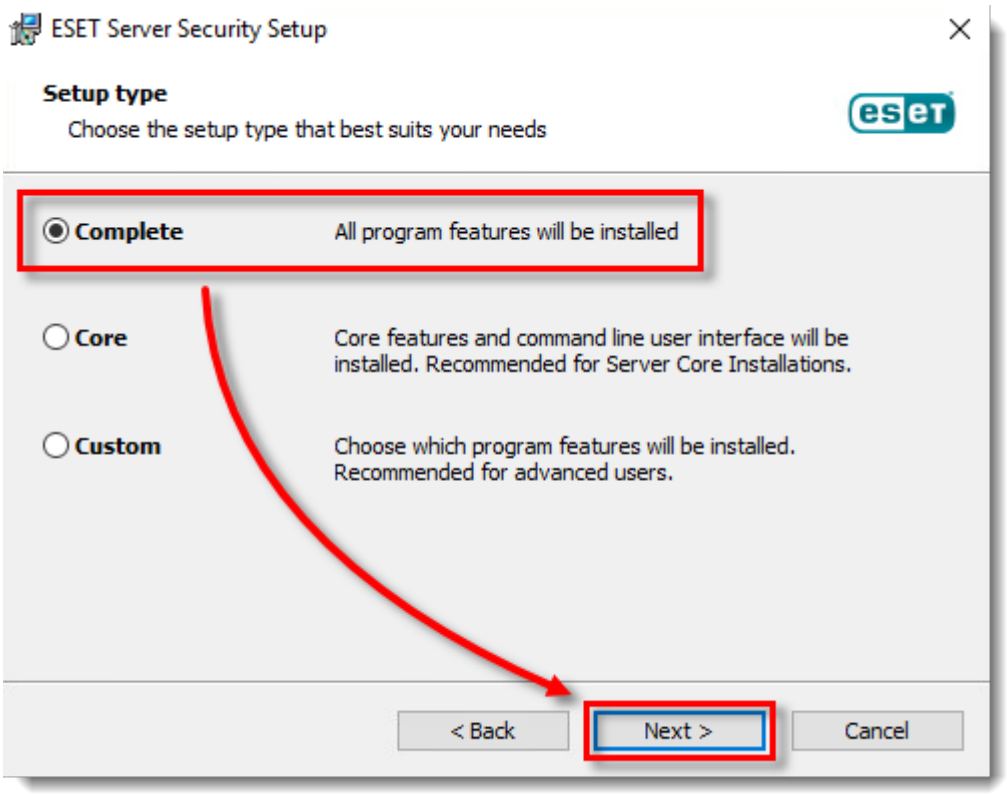

- ESET Mail Security for Microsoft Exchange Server
- ESET Server solutions for Linux/FreeBSD

1. Click the link below to download the installer file for ESET Server Security for Microsoft Windows Server 8:
    1. 64-bit Download
2. When the download is complete, double-click the installer file to launch the ESET Server Security for Microsoft Windows Server Setup Wizard.
3. Select your preferred language from the **Product language** drop-down menu and click **Next**.

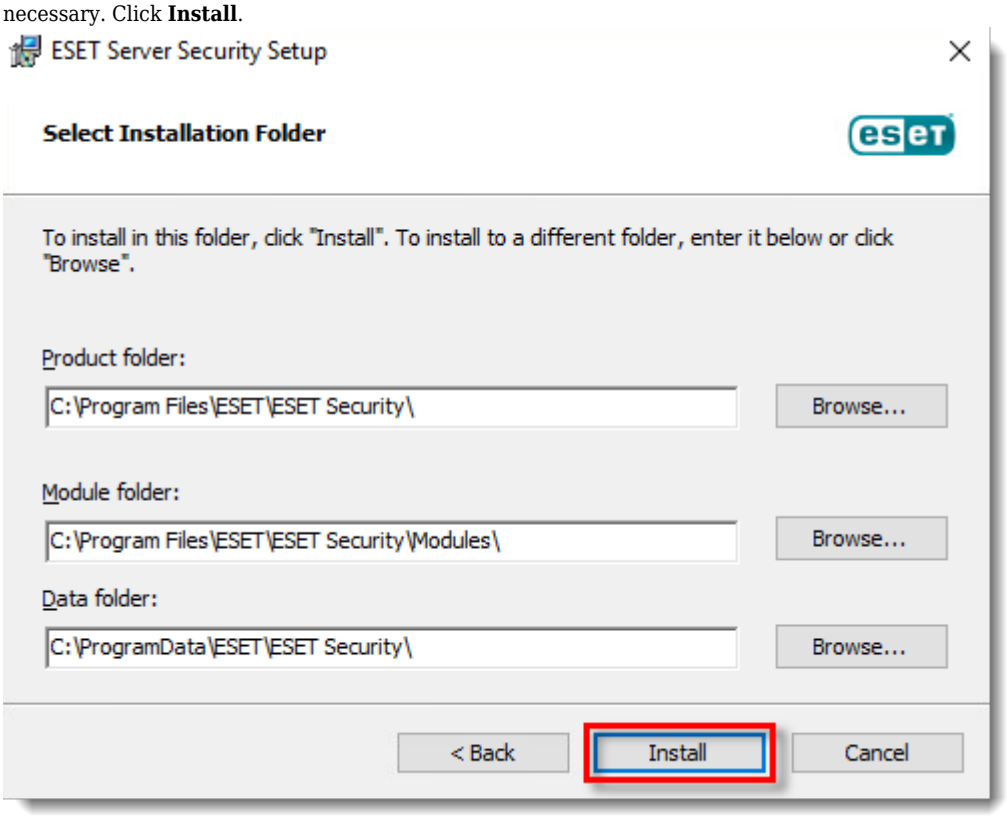

4. Select **I accept the terms in the License Agreement** and click **Next**.
5. Select **Complete** and click **Next**.

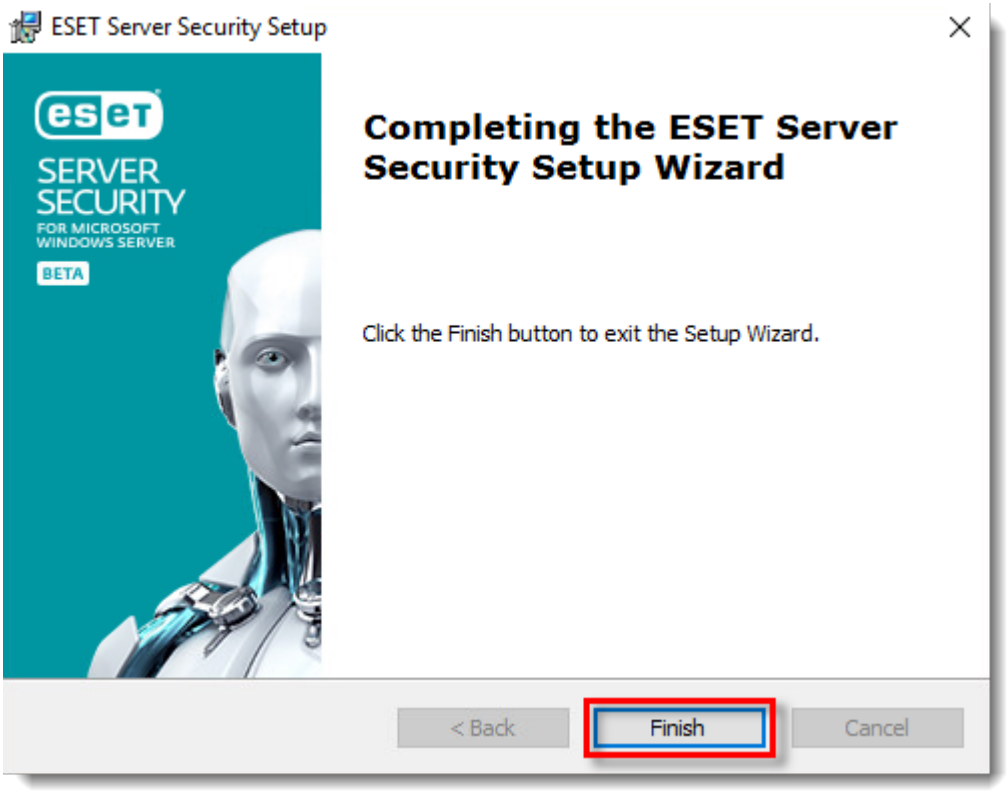

> Windows Server 2008/2008R2 users
> If you are a Windows Server 2008/2008R2 user, select **Custom** setup. Verify that the Web and email module is installed.

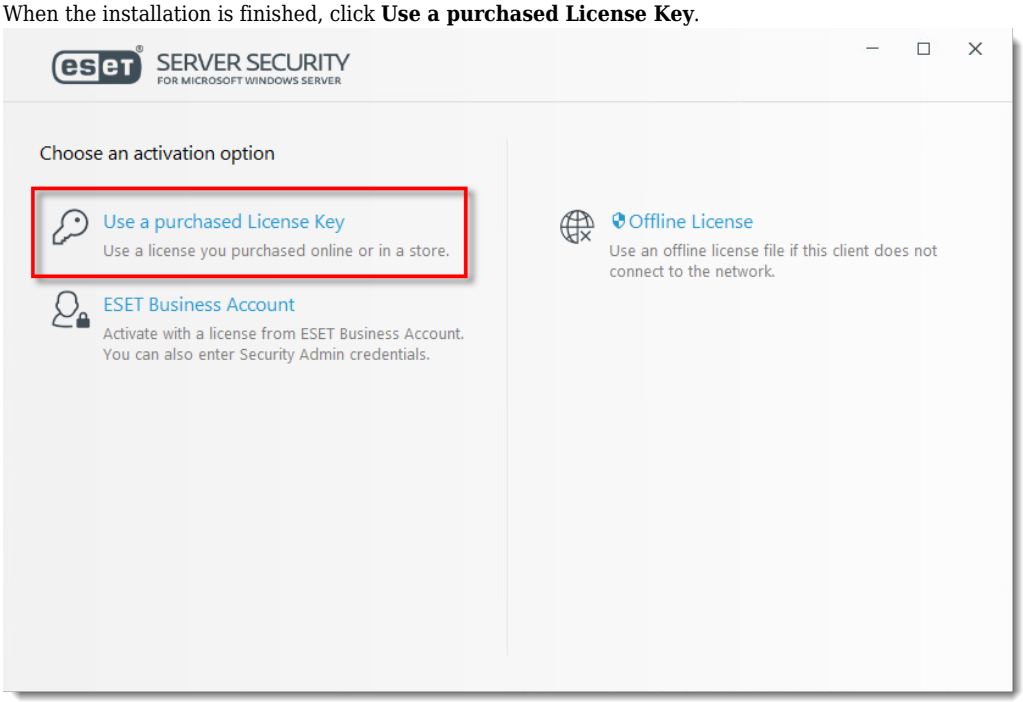

6. Verify and update the install location for the ESET Server Security Product, Module, or Data folders if necessary. Click **Install**.

7. Click **Finish**. ESET Server Security for Microsoft Windows Server will open automatically.

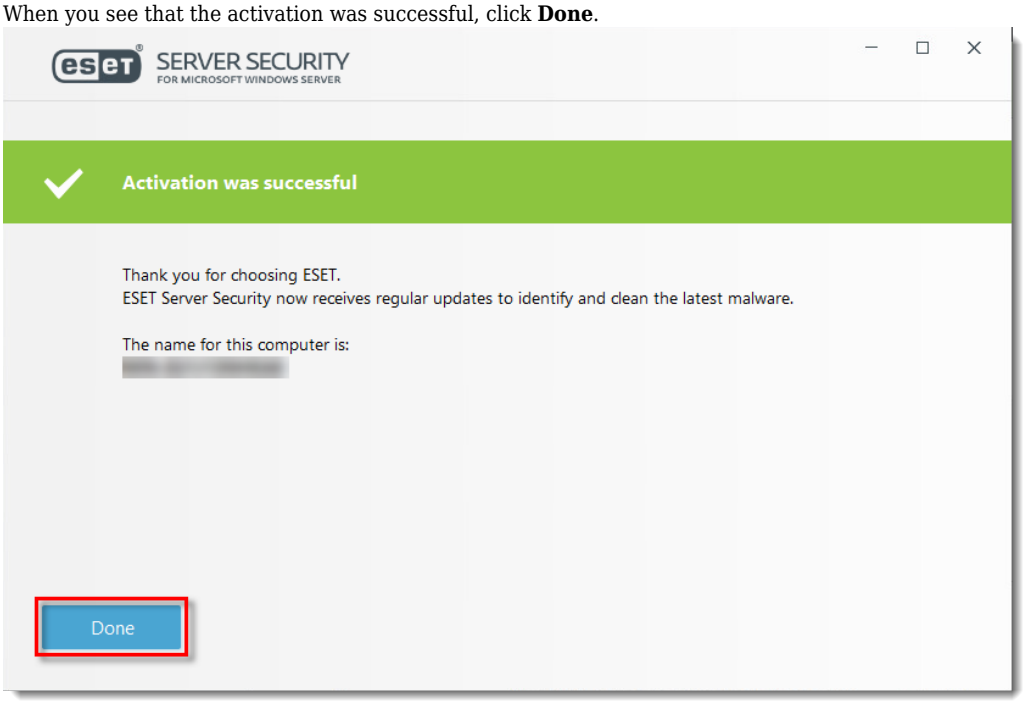

8. When the installation is finished, click **Use a purchased License Key**.

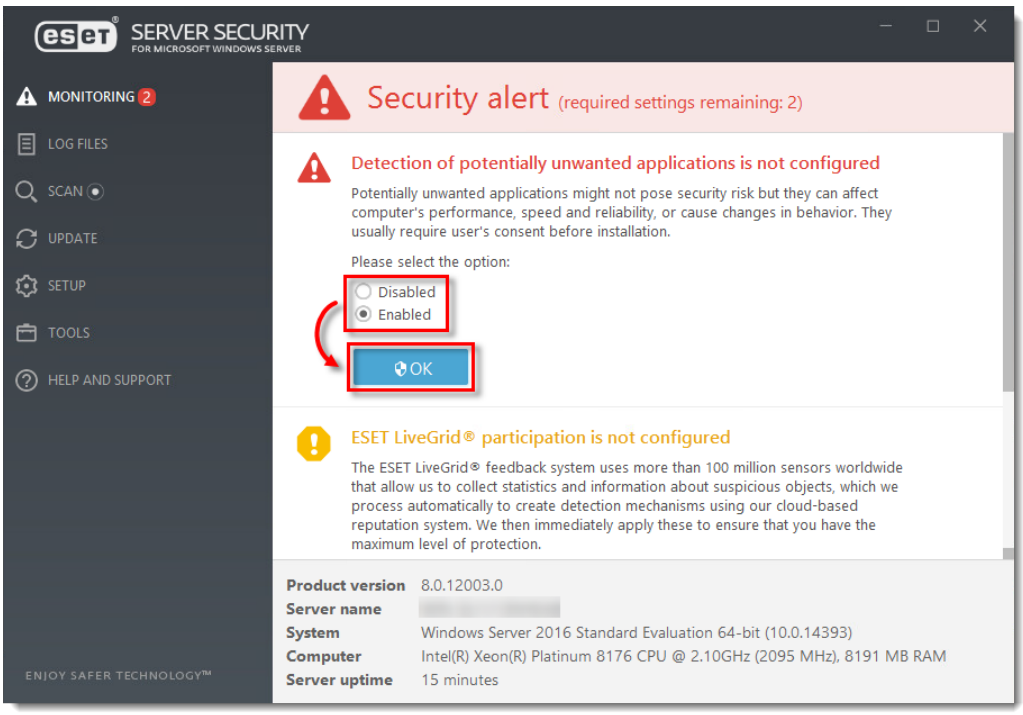

9. Type or copy/paste your License Key in the **License Key** field and click **Continue**. If you currently use a Username and Password, convert them into a License Key. If you do not have your License Key, click here to have your license information sent to you.

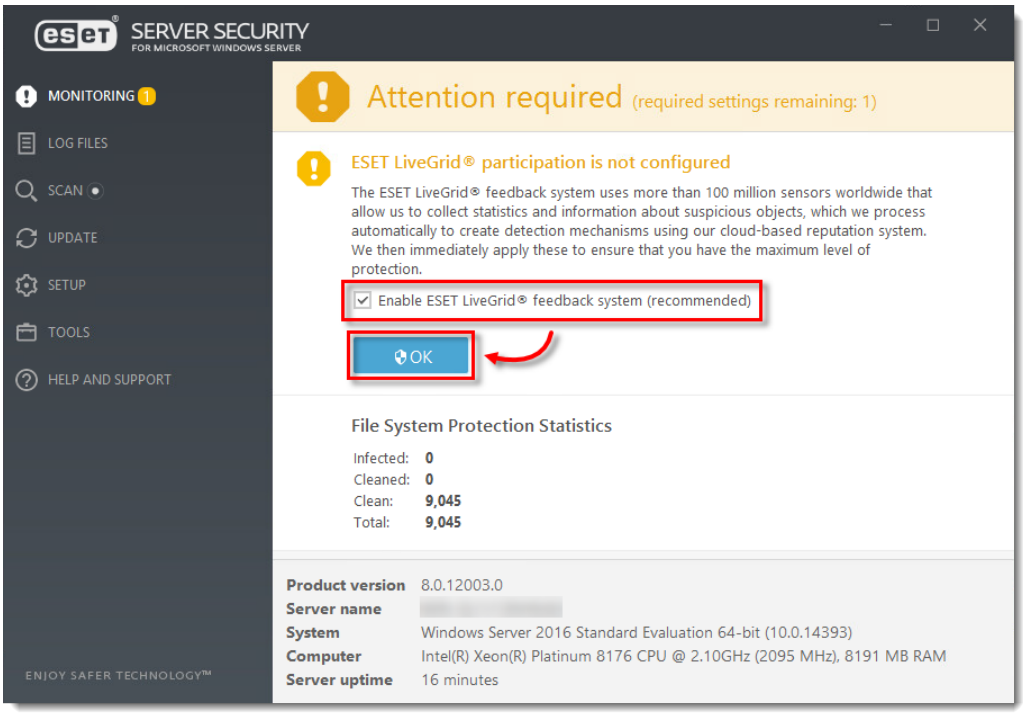

10. When you see that the activation was successful, click **Done**.

11. Select an option to enable or disable the **Detection of potentially unwanted applications** and click **OK**. What is a potentially unwanted application?

12. Ensure that the check box next to **Enable ESET LiveGrid® feedback system (recommended)** is selected and then click **OK**.

13. ESET Server Security for Microsoft Windows Server is installed and your computer is fully protected.
