firewall blocks Miracast protocol

ESET Endpoint Security firewall blocks Miracast protocol

Steeff | ESET Nederland - 2019-11-08 - Reacties (0) - ESET Endpoint Security

Issue: Miracast protocol is blocked by ESET Endpoint Security firewall

Solution: Create the following allow rule in the Endpoint Firewall

General

Name: Allow Miracast on Surface HUB

Enables: yes

Direction: Both

Action: Allow

Protocol: TCP and UDP

Local

Application: C:\Windows\System32\WUDFHost.exe

The screenshot shows the 'Add rule' dialog box with the following configuration:

- General** tab selected.
- Name: Allow Miracast on Surface HUB
- Enabled:
- Direction: Both
- Action: Allow
- Protocol: TCP & UDP
- Port: 0
- ICMP Type/Code: (empty)
- Profile: Any profile
- Logging severity: None
- Notify user:
- OK button at the bottom right.
