Issue

Change the filtering mode of the ESET Firewall
Learn about the different filtering modes available for the ESET Personal firewall

Details

Solution

Explanation of filtering modes

Change the filtering mode from ESET Remote Administrator

Change the firewall filtering mode on individual client workstations

Explanation of filtering modes

Change the filtering mode from ESET Remote Administrator

If you do not use ESET Remote Administrator to manage your network

Perform these steps on individual client workstations.

1. Open ESET Remote Administrator Web Console (ERA Web Console) in your web browser and log in. Open ERA Web Console.
2. Click **Admin → Policies**.
3. Click the gear wheel icon next to the policy you want to modify and click **Edit**.

Figure 1-1

4. Expand **Settings**, click **Personal firewall**, select your desired option from from the **Filtering mode** drop-down menu and then click **Finish**.

Click the image to view larger in new window

Change the filtering mode on individual client workstations

1. Open ESET Endpoint Security. Open my ESET product.
2. Click **Setup → Network** tab.
3. Click the gear wheel icon next to **Firewall** and select **Configure** from the drop-down menu.

Figure 2-1

4. Click **Firewall**, select your desired filtering mode from the **Filtering mode** drop-down menu and then click **OK**to save your changes.
