[Details](#)

[Solution](#)

If you do not use ESET Remote Administrator to manage your network

[Perform these steps on individual client workstations.](#)

From ESET Remote Administrator Web Console

1. [Open ESET Remote Administrator Web Console](#) (ERA Web Console) in your web browser and log in.
2. Click **Admin**  → **Policies** and then select the policy you want to modify.
3. Click **Policies** → **Edit**.

4. Expand **Settings**, select **ESET Security Product for Windows** from the drop-down menu, and then click **Antivirus** → **Removable media**.
5. Click the slider bar next to **Action to take after inserting removable media** and select **Automatic device scan** from the **Action** drop-down menu.

6. Click **Finish**.

On individual client workstations

1. Insert your trusted removable media device into your computer and click **Setup** when the **New device detected** notification appears.

Figure 2-1

2. Expand **Antivirus** and click **Removable media**.
3. Click the slider bar next to **Action to take after inserting removable media**, select **Automatic device scan** from the **Action** drop-down menu and then click **OK**. Now, any time removable media is detected, your ESET product will automatically scan it and you will not be prompted to take any action.
