If you use ESET Remote Administrator to manage your network

Perform these steps in ESET Remote Administrator.

1. Using your Android device, navigate to the ESET Endpoint Security for Android page of the Google Play Store.

2. Tap **Install**.

Figure 1-1

3. After the app has finished downloading, tap **Open**.

Figure 1-2

4. Tap **Admin setup**.

Figure 1-3

5. Select the check box if you want to share application data to help improve ESET products and then tap **Accept**.

Figure 1-4

6. Read the User consent tap **Accept**. If you do not agree, tap **Decline** to cancel the installation.

Figure 1-5

7. Tap **Yes, connect to Remote Administrator** to configure ESET Endpoint Security for use in a managed environment with ESET Remote Administrator, or tap **No, setup manually**.
