Opt-out from auto-updates in the latest version of ESET PROTECT and ESET PROTECT Cloud

Steef | ESET Nederland - 2021-12-02 - Reacties (0) - ESET PROTECT

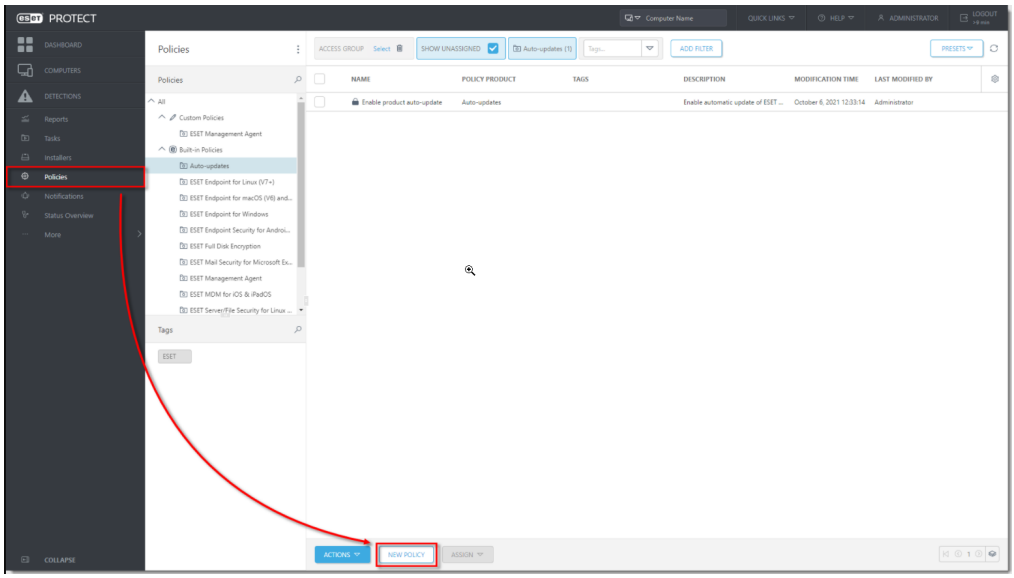
Issue

- Create a new policy to opt-out from auto-updates

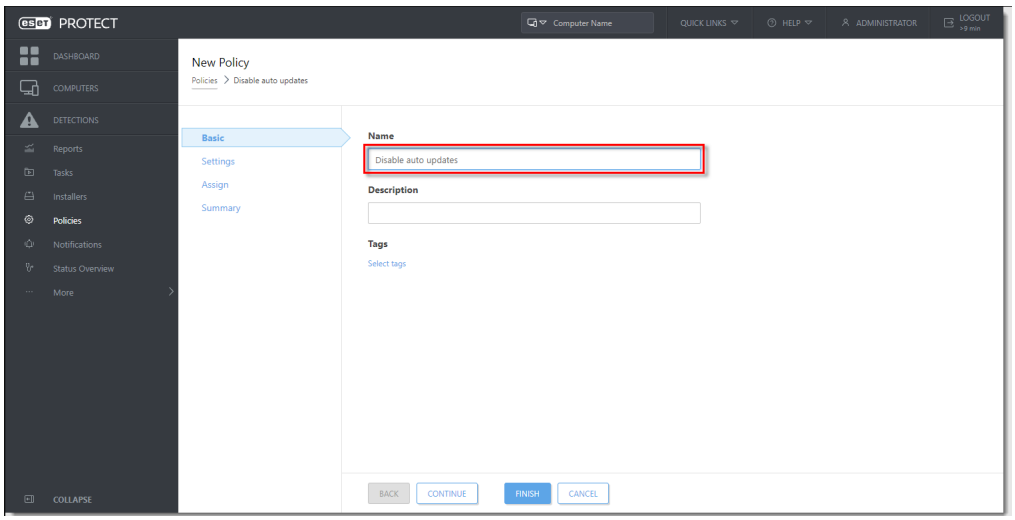
Solution

See the ESET business products that support auto-updates.

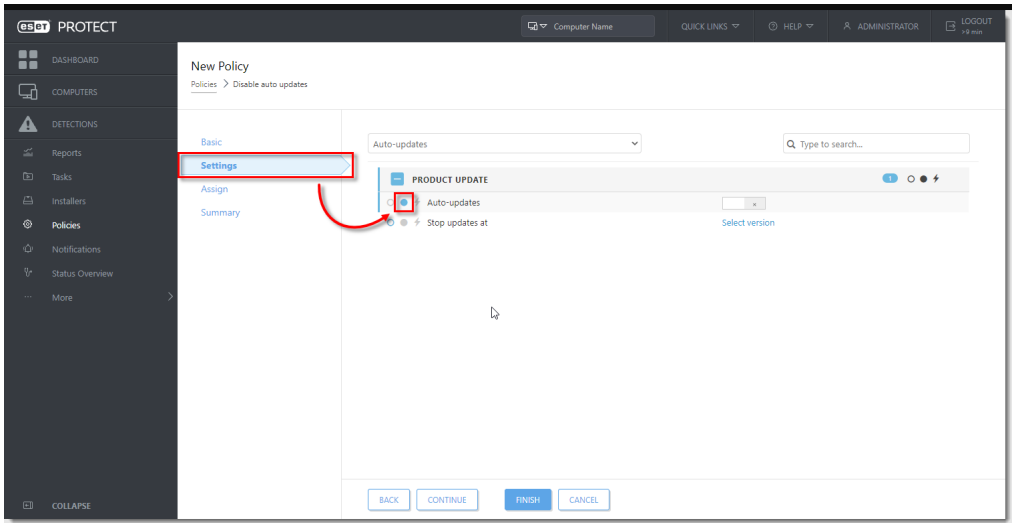
1. Open the ESET PROTECT or ESET PROTECT Cloud Web Console in your web browser and log in.
2. Click **Policies** → **New policy**.



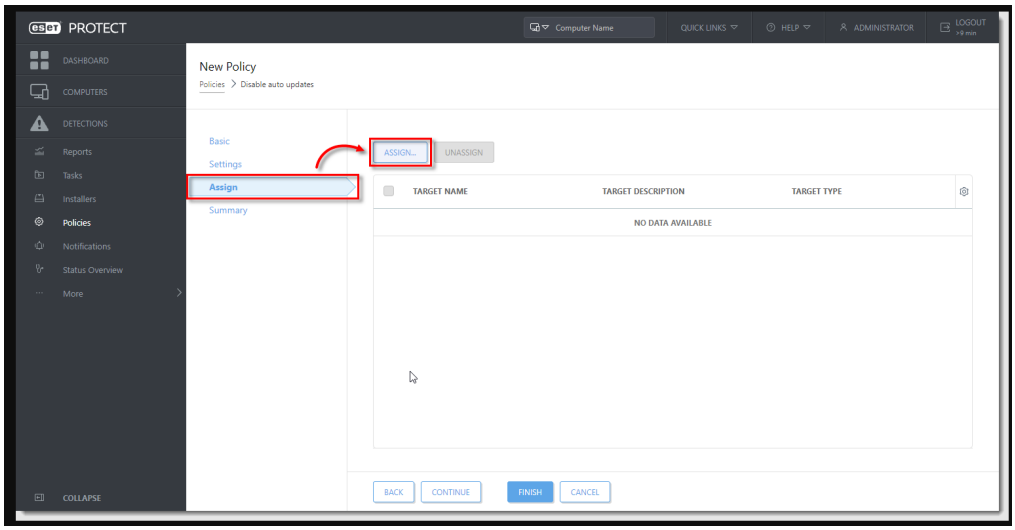
3. Type a name for the new policy to the **Name** field. The **Description** field is optional.



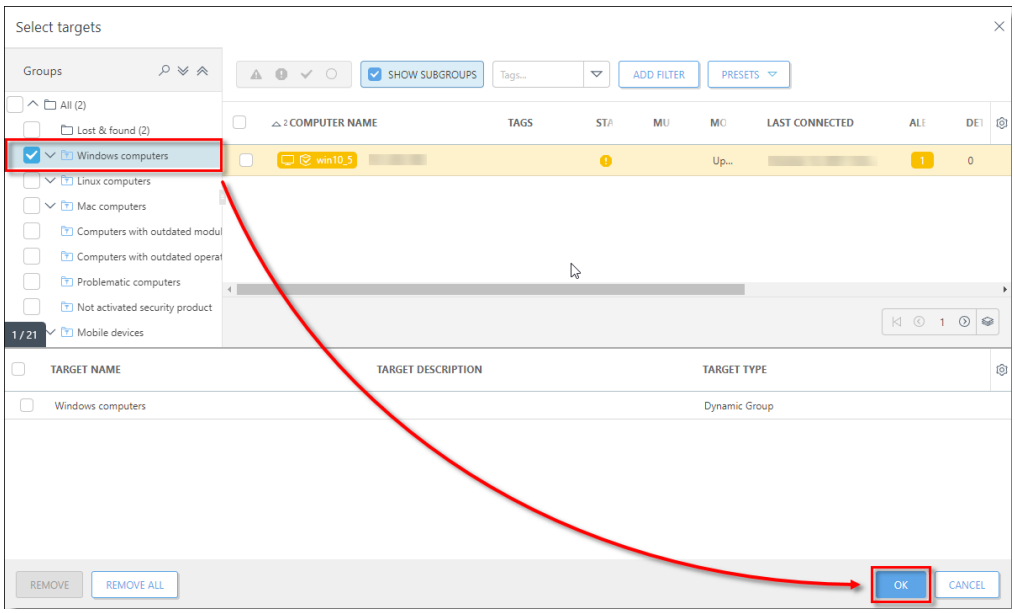
4. Click **Settings** and click the grey radio button next to the **Auto-updates**. The radio button will turn blue and the setting will be set by this policy.



5. Click **Assign** → **Assign**.



6. Select the check boxes next to each static or dynamic group that you want this policy assigned to and click **OK**.



7. Click **Finish** to save your policy. Your policy settings will be applied to the target groups or client computers.
