Upgrade ERA Agents (6.5) or ESET Management Agents (7.x) to the latest ESET Management Agents (7.2) using the Components Upgrade Task

Anish | ESET Nederland - 2025-03-07 - Reacties (0) - 6.x

Issue

- You have upgraded your ERA 6.5 or ESMC 7.x product to the latest version of ESET Security Management Center 7.2, but the computers managed by ESMC are still running an older Agent version, as shown in the Web Console → **Dashboard** → **ESET Applications** → **Outdated Applications**

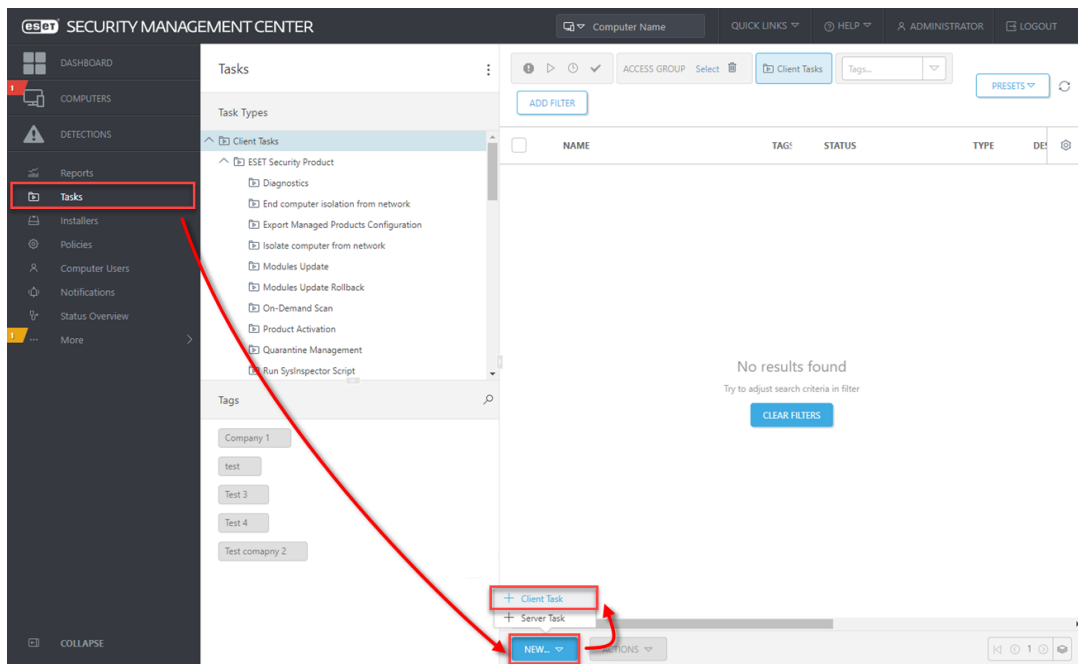

The screenshot shows the ESET Security Management Center Web Console interface. The left sidebar contains navigation options: DASHBOARD, COMPUTERS, DETECTIONS, Reports, Tasks, Installers, Policies, Computer Users, Notifications, Status Overview, and More. The main content area displays the 'Dashboard' with tabs for Status Overview, Security Overview, Computers, Security Management Center Server, Antivirus detections, Firewall detections, and ESET applications. The 'ESET applications' tab is selected, showing a donut chart for 'Application version status' with 12 total applications, 10 up-to-date (green) and 2 outdated (yellow). Below the chart, a table titled 'Outdated applications' lists two entries: 'ESET Endpoint Security' and 'ESET Management Agent', both with version 6.6.2089.2. A red box highlights these two entries. Below this, a table titled 'Installed ESET applications' lists all installed applications with their versions and counts.

Group by (Application name)	Group by (Repository language)	Group by (Application vendor)	Group by (Application version)	Count (Application name)
ESET Endpoint Antivirus	en_US	ESET, spol. s r.o.	7.2.2055.0	1
ESET Endpoint Security	en_US	ESET, spol. s r.o.	6.6.2089.2	1
ESET Endpoint Security	en_US	ESET, spol. s r.o.	7.2.2055.0	1
ESET Enterprise Inspector Agent	en_US	ESET, spol. s r.o.	1.3.1145	1
ESET Enterprise Inspector Server	en_US	ESET, spol. s r.o.	1.2.894	1
ESET Management Agent	en_US	ESET, spol. s r.o.	7.0.577.0	1
ESET Management Agent	en_US	ESET, spol. s r.o.	7.1.503.0	1
ESET Management Agent	en_US	ESET, spol. s r.o.	7.1.717.0	3
ESET Rogue Detection Sensor	en_US	ESET, spol. s r.o.	1.1.615.0	1
ESET Security Management Center Server	en_US	ESET, spol. s r.o.	7.1.503.0	1

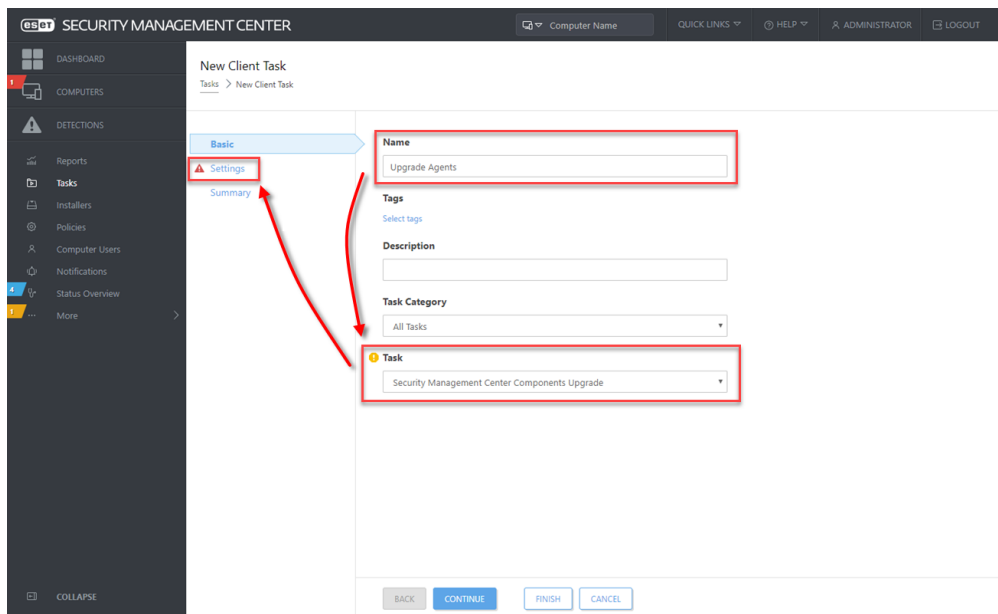

Solution

1. [Open the ESMC Web Console.](#)
2. Click **Tasks** → **New** → **Client Task**.

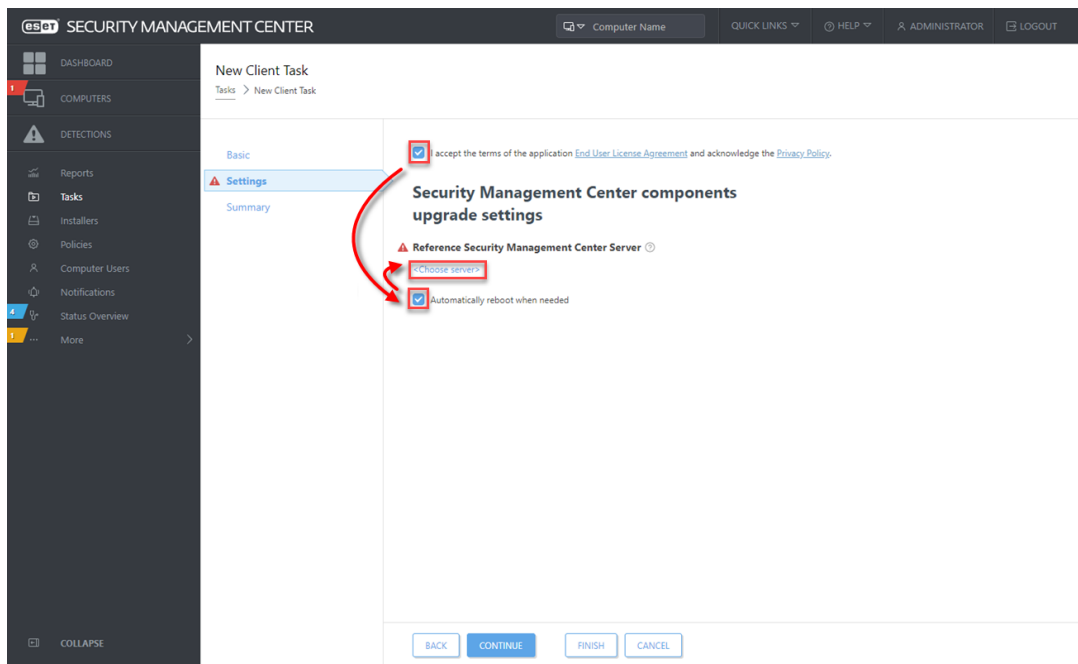

1. Type a task **Name**, select **Security Management Center Components Upgrade** from the **Task** drop-down menu and click **Settings**.

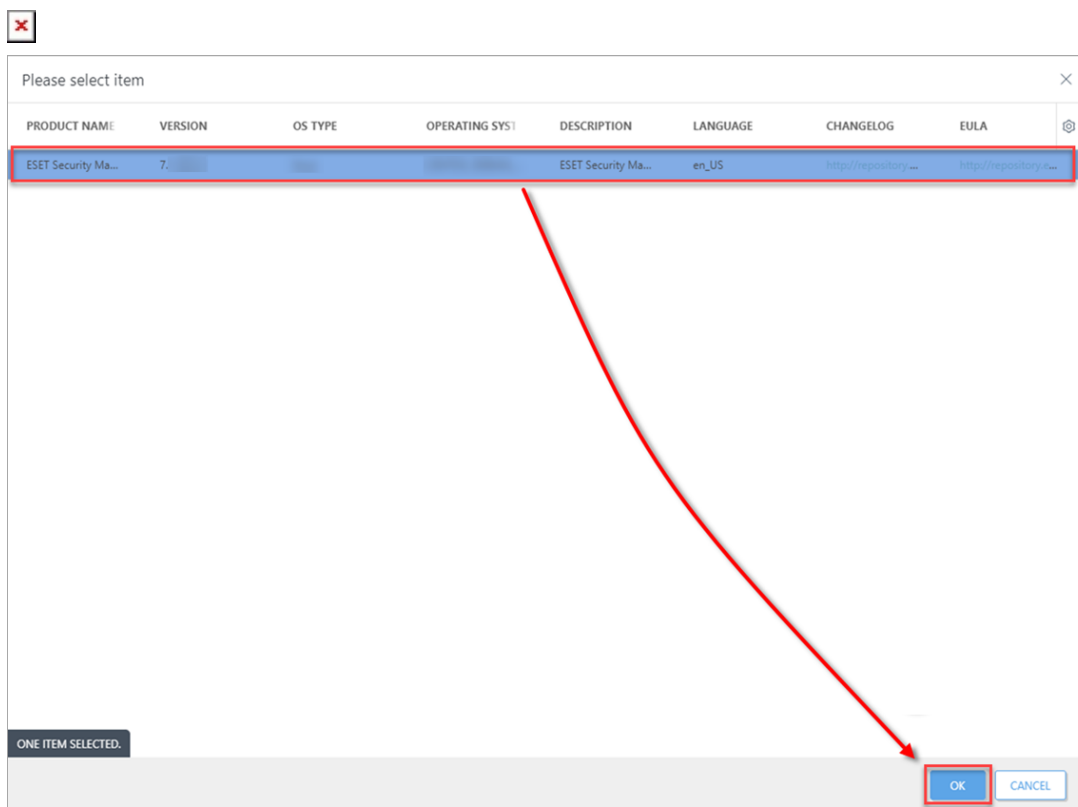

2. Select the check boxes next to **I accept the terms of the application End User License Agreement and acknowledge the Privacy Policy** and **Automatically reboot when needed** and click **Choose server**.

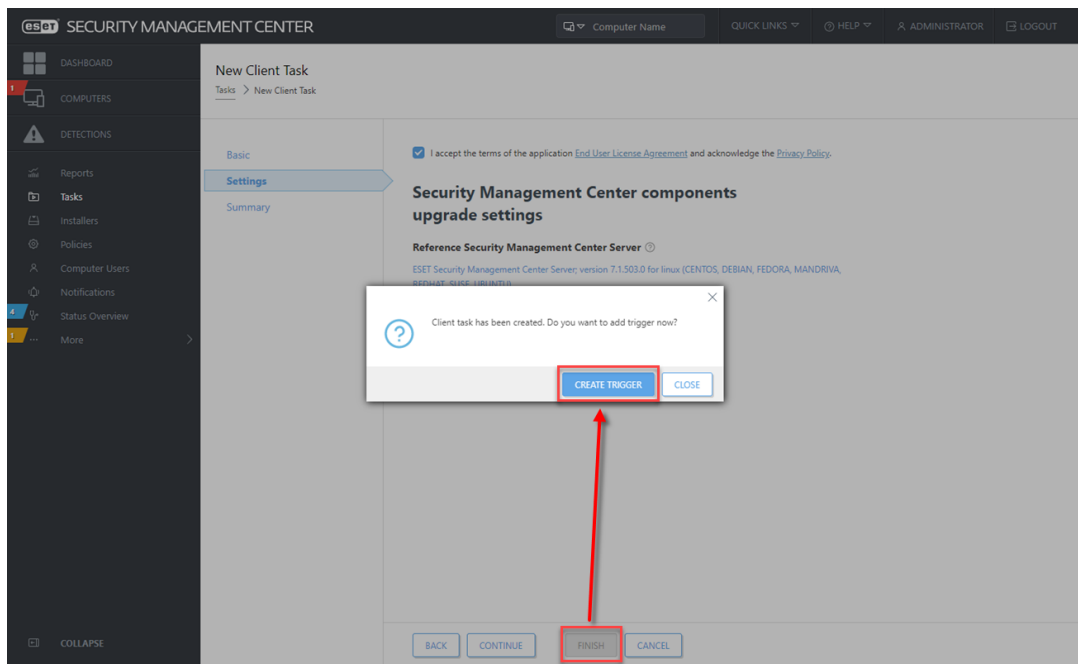

1. Select the latest version of ESET Security Management Center and click **OK**.

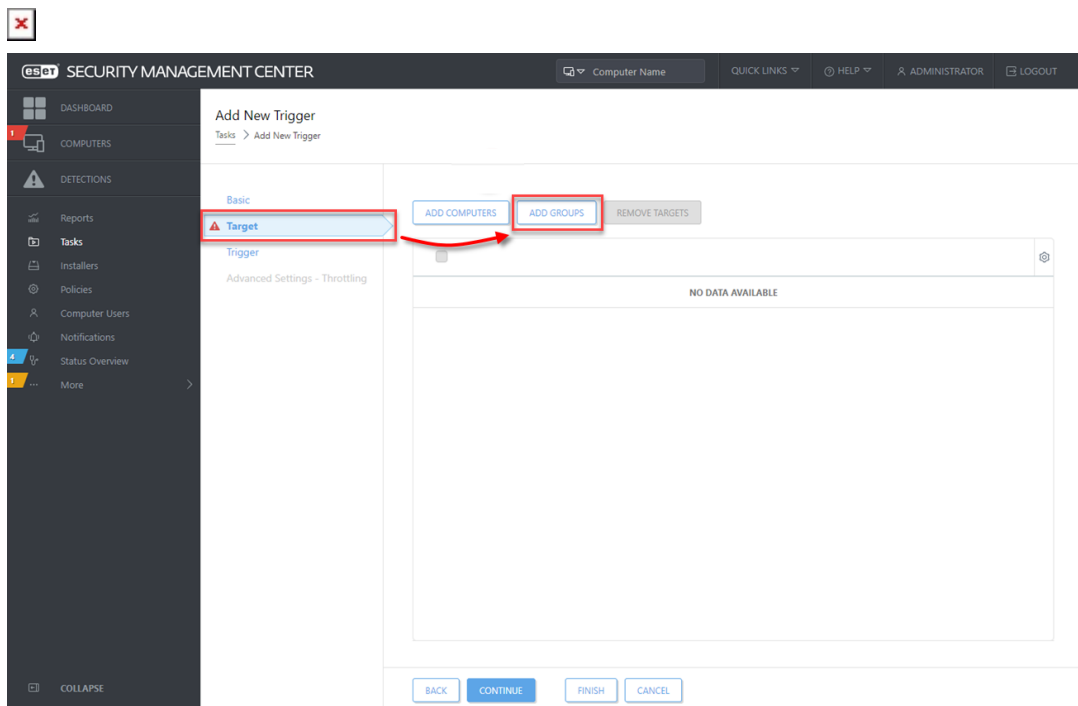

1. Click **Finish** to create the Client Task and click **Create Trigger**.

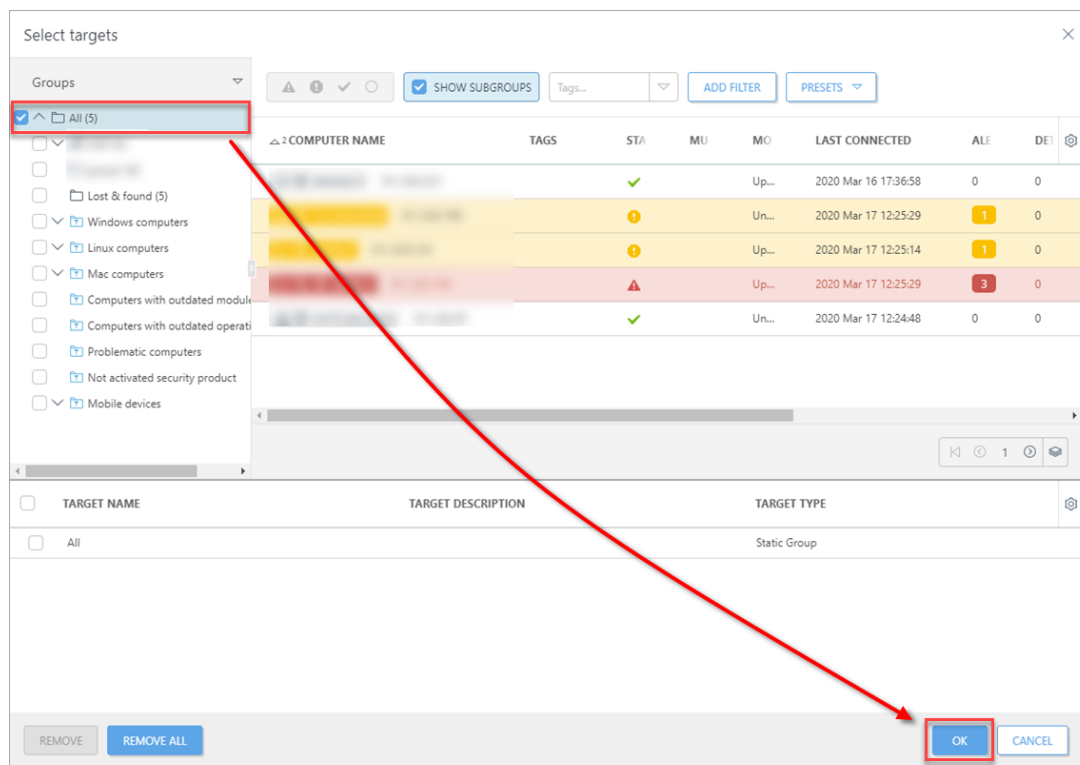

1. Click **Target** → **Add Groups**.

1. Under **Groups**, select the check box next to the **All** and click **OK**

1. Click **Finish** to apply the Client Task to all managed computers. The task may take longer to complete, depending on the Agent replication interval. After the task completes on all computers, ESET Management Agent on all managed computers is updated to the latest version (7.2).
