Upgrade ESET endpoint products from the Dashboard using one-click action in ESET PROTECT

Steef | ESET Nederland - 2021-01-15 - Reacties (0) - ESET PROTECT

Issue

- [One-click actions](#) in ESET PROTECT enable users to manage alerts
- You want to update your ESET endpoint product or ESET File Security product using the Dashboard in ESET PROTECT (8.x)

Solution

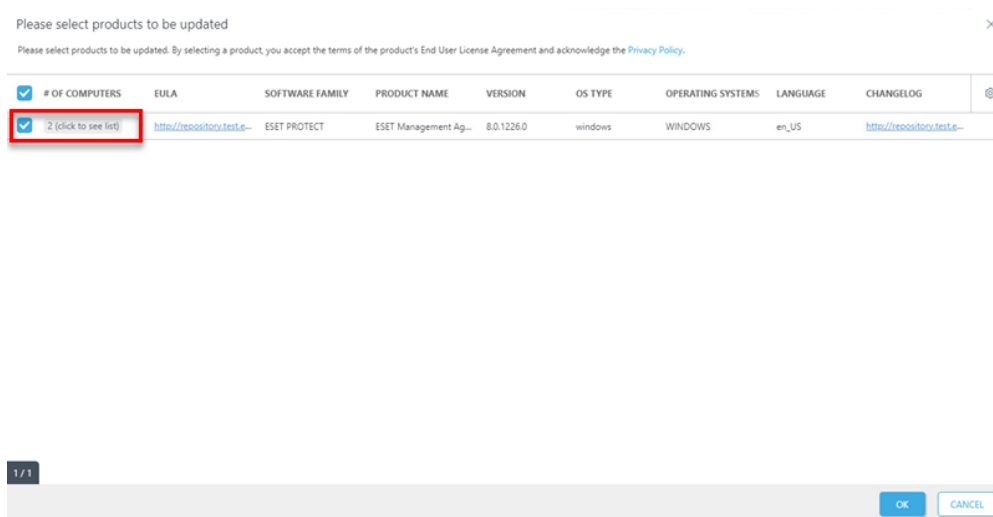

To upgrade ESET security products on the client computers using a one-click action in ESET PROTECT:

1. [Open ESET PROTECT Web Console](#) in your web browser and log in.
2. Click **Dashboard** → **ESET Applications**.
3. In the **Application version status** report, left-click the yellow section of the graph and select **Update installed ESET products**.

The screenshot shows the ESET PROTECT Web Console interface. The left sidebar contains navigation options: DASHBOARD, COMPUTERS, DETECTIONS, Reports, Tasks, Installers, Policies, Notifications, and Status Overview. The main content area is titled 'Dashboard' and includes tabs for Status Overview, Security Overview, Computers, Server Performance Status, Antivirus detections, Firewall detections, ESET applications, and Dynamic Threat Defense. The 'ESET applications' tab is selected. Under the 'Application version status' section, there is a donut chart showing 6 products. A red box highlights the 'Update installed ESET products' button. A red circle with the number '2' points to the 'ESET applications' tab in the top navigation bar. A red circle with the number '3' points to the 'Update installed ESET products' button. Below the chart, there are tables for 'Outdated applications' and 'Installed ESET applications'.

Group by (Application name)	Group by (Repository language)	Group by (Application vendor)	Group by (Application version)	Count (Application name)
ESET Endpoint Security	en_US	ESET, spol. s r.o.	8.0.2024.0	1
ESET Management Agent	en_US	ESET, spol. s r.o.	8.0.1206.0	3
ESET PROTECT Server	en_US	ESET, spol. s r.o.	8.0.1206.0	1
ESET Rogue Detection Sensor	en_US	ESET, spol. s r.o.	1.1.693.1	1

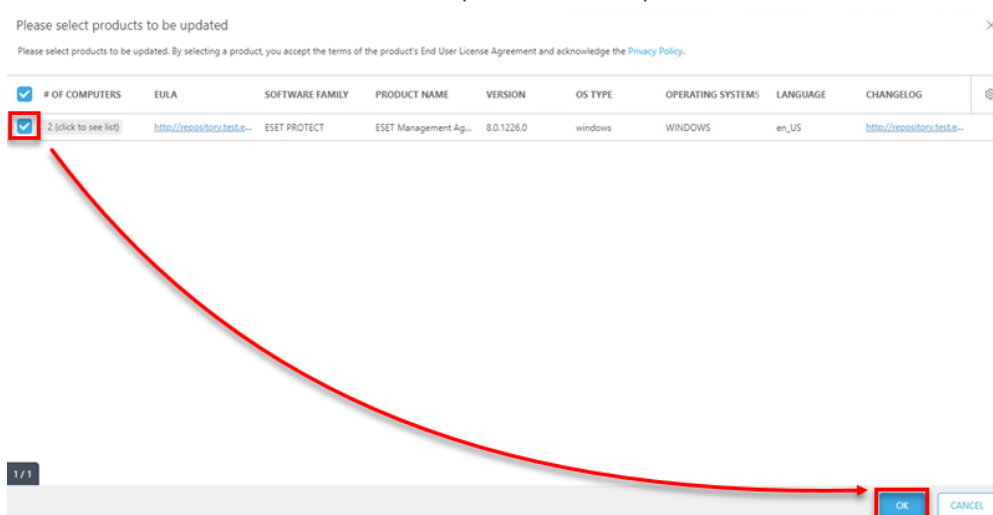

4. Click **(click to see the list)** to see the computers where the ESET product will be updated.

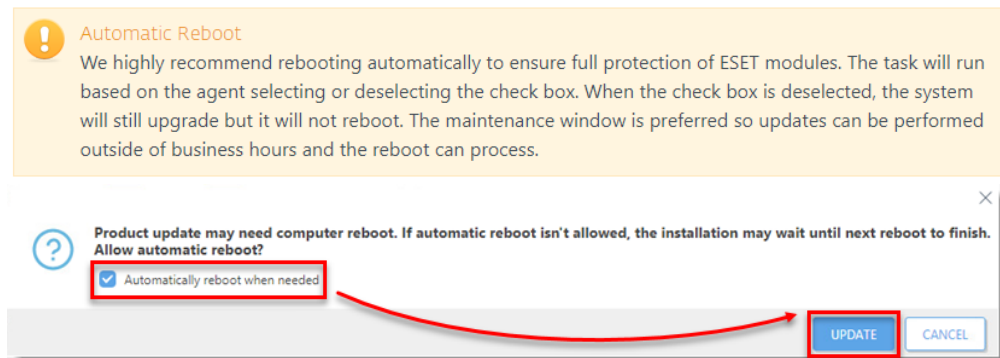

5. Select the check box next to the computers where you want the ESET product to be updated and click **OK**.

6. Select the check box next to the ESET product to be updated, and click **OK**.

7. Select the check box next to **Automatically reboot when needed** and click **Update**. To have machines restart later, deselect the check box.

8. Click **Tasks** to view the progress of any scheduled Client Task(s). When the task finishes successfully, the managed computers are protected by the latest version of ESET security software.
