

# Upgrade ESET endpoint products from the Dashboard using one-click action in ESET PROTECT

Steef | ESET Nederland - 2021-01-15 - [Reacties \(0\)](#) - [ESET PROTECT](#)

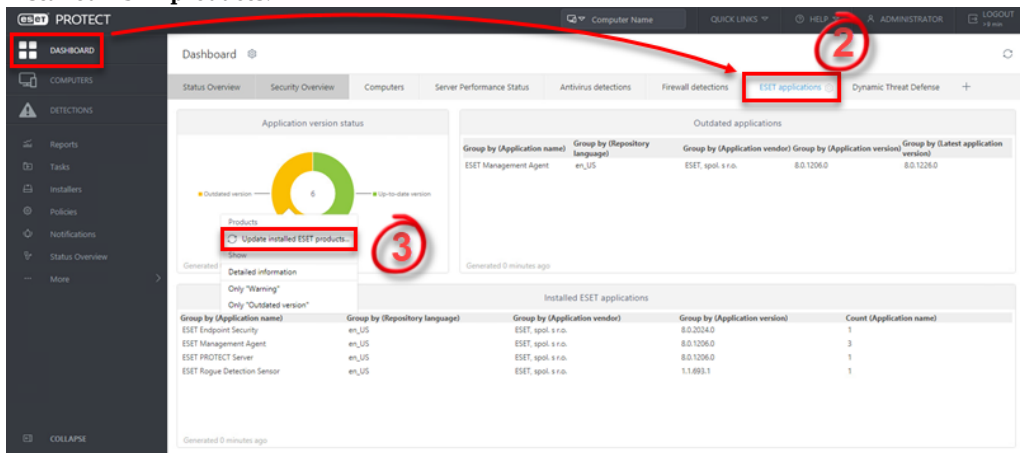

## Issue

- [One-click actions](#) in ESET PROTECT enable users to manage alerts
- You want to update your ESET endpoint product or ESET File Security product using the Dashboard in ESET PROTECT (8.x)

## Solution

To upgrade ESET security products on the client computers using a one-click action in ESET PROTECT:

1. [Open ESET PROTECT Web Console](#) in your web browser and log in.
2. Click **Dashboard** → **ESET Applications**.
3. In the **Application version status** report, left-click the yellow section of the graph and select **Update installed ESET products**.

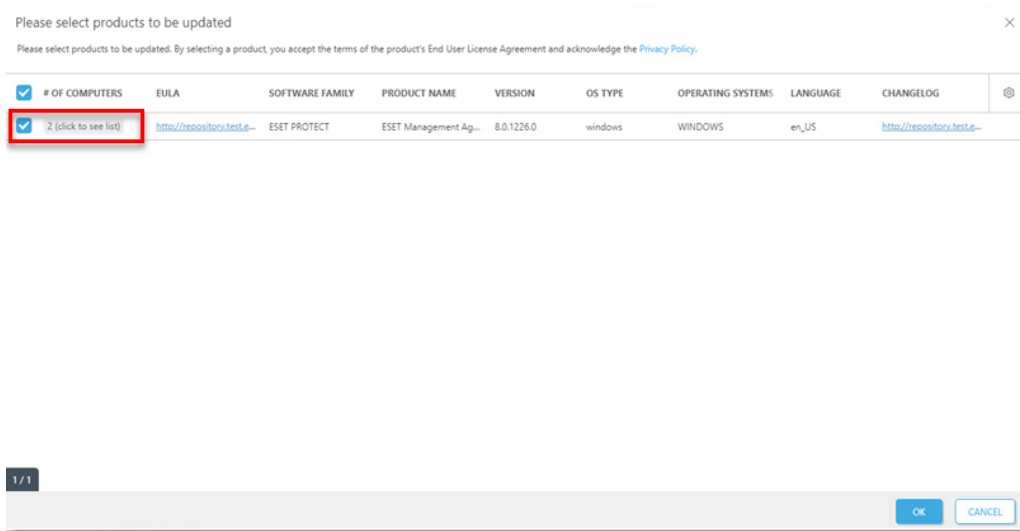

| Group by (Application name) | Group by (Repository language) | Group by (Application vendor) | Group by (Application version) | Count (Application name) |

### ESET Management Agent

ESET Management Agent can not be updated through the Dashboard. [Please visit our Online help topic for more information.](#)

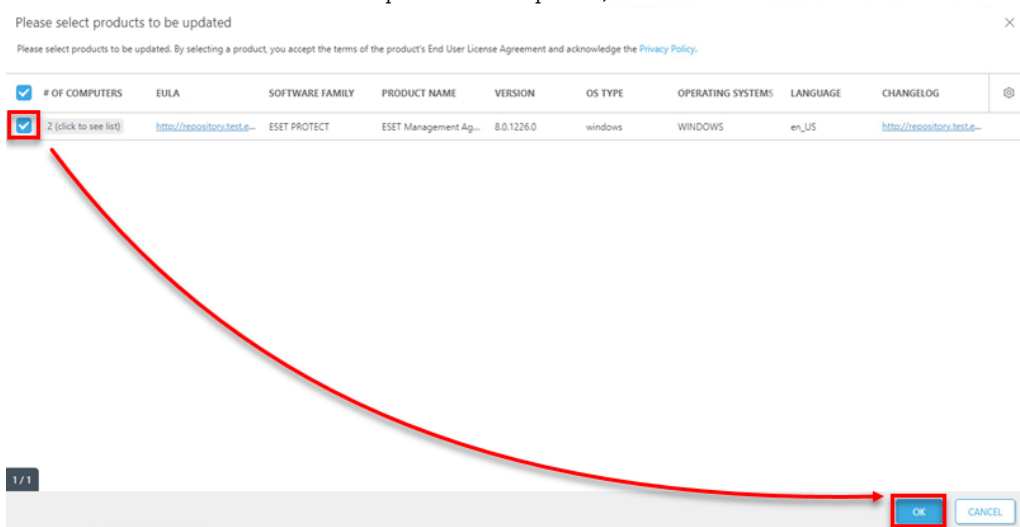

4. Click (**click to see the list**) to see the computers where the ESET product will be updated.

5. Select the check box next to the computers where you want the ESET product to be updated and click **OK**.

6. Select the check box next to the ESET product to be updated, and click **OK**.

7. Select the check box next to **Automatically reboot when needed** and click **Update**. To have machines restart later, deselect the check box.
