## Announcement: ESET INSPECT - Enabling nonoptional rules; Warning level only

2024-03-07 - Steef | ESET Nederland - Reacties (0) - Customer Advisories

One of our goals is to make a full transition towards Incident Centricity where the main workflow is with Incidents. For this reason, we need to increase the number of inputs for our algorithms, and **it will be done by enabling of the non-optional rules: Warning severity level only and only in Cloud instances.** 

After internal testing and observation, we state that enabling of the non-optional rules **should not lead to significant noise increase in Detection view and also to not have significant impact to Syslog.** 

In case you do not want to display it, you can quickly filter out the levels by using these quick filters:

ese	D PROT	ECT & INSPECT		ALL COMPUTERS	ר	HELP 🗢 🎗 IVAN PUCHRIK	🖃 log out
	Detectio		<b>0 0 0</b> TAGS	$\bigtriangledown$		⊕ Add filter	$\mathbb{V} \oplus \mathbb{C}$
ц Ц		DETECTIONS (3480)	SEVERITY PRIORIT	Y OCCURRENC RE	SOLVED	▽ TIME OCCURRED	сом 🕲 🕯
ન્દુ		ARule Management of the services from command line [B0403]	i	1	0/1	Feb 5, 2024, 1:14:06 PM	•
