## ESET cloud services login maintenance

2024-09-26 - Steef | ESET Nederland - Reacties (0) - Maintenance

Please be aware that on **Monday, September 30, 2024 between 07:00 - 08:00 UTC**, we will perform a scheduled maintenance that will affect the ability to log in to various ESET services.

During the maintenance time window, we anticipate that users who are already logged into our cloud products will remain unaffected. However, please note that new logins may be temporarily unavailable for up to **5-10 minutes**.

Following ESET cloud security services will be affected for several minutes:

- ESET Business Account
- ESET MSP Administrator
- ESET PROTECT Hub
- ESET Cloud Office Security
- ESET PROTECT
- ESET Inspect
- ESET Secure Authentication Cloud
- ESET Threat Intelligence
- ESET Education Portal

Thank you for your patience and understanding.
