ESET Direct Endpoint Management plugin for N-able N-central Service Release 2.0 has been released

2024-10-11 - Steef | ESET Nederland - Reacties (0) - Feature release

ESET Direct Endpoint Management plugin for N-able N-central version 2.0 has been released and is available to download on the ESET Integration page.

Changelog

- UPDATED: Streamlined and simplified all Automation Policies, updated their inputs and outputs

- ADDED: New Automation Policies that support input in the form of an Organization/Device-level Custom Properties

- ADDED: A new Automation Policy that can gather various data points from an ESET security product on the managed device and output these to Device-level Custom Properties

- ADDED: A new Onboard Automation Policy replaces the old Deploy Activate Automation Policy, simplifying the deployment process and providing support for the deployment of the ESET PROTECT and ESET PROTECT On-Prem agents

- ADDED: A new Offboard Automation Policy that uninstalls any ESET security product together with the ESET Management Agent (if applicable) from the managed device

- ADDED: A new Custom Service for detecting the ESET security product activation status on a managed device

- REMOVED: The Deploy Activate Automation Policy and Upgrade Automation Policy are now obsolete and will be removed by the ESET security product auto-update on the managed device
