ESET Endpoint Encryption version 5.4.14.0 has been released

2025-04-09 - Steef | ESET Nederland - Reacties (0) - Hotfix

ESET Endpoint Encryption version 5.4.14.0 has been released.

Changelog

- IMPROVED: Reduced the time taken to display the pre-boot authentication screen by 10 seconds on certain Lenovo laptops, for example, T14 Gen3 and T16 Gen2 models
- FIXED: A problem on Windows 24H2 where a user would be signed out when attempting to hibernate the system
- FIXED: A problem where the pre-boot screen would freeze on the Surface Laptop 5
- FIXED: A problem on some Dell devices where the pre-boot screen would pause before input was accepted
- FIXED: A problem where SSO would not work when resuming from hibernate
- FIXED: A problem when where RDP logins would occur twice
- FIXED: A problem where the user activation state is lost after restart on Windows 11 24H2
- FIXED: A problem where the pre-boot SSO password would not be synchronized when the user changed their password from Windows
