ESET Secure Authentication On-Prem 3.2.1.0 feature update (minor)

2026-06-10 - Steef | ESET Nederland - Reacties (0) - Feature release

A feature update (minor) of ESET Secure Authentication On-Prem 3.2.1.0 has been released and is available to download.

Changelog

- [ADDED: Possibility to extend list of ignored service accounts via Authentication server app config
- ADDED: IdP connector Users setting added to specify realm to which users should be added if default behavior not preferred
- IMPROVED: EULA replaced with unified Terms of Use
- IMPROVED: Terminology in UI updated in line with transition to Subscription model
- FIXED: Authentication using FIDO without user verification not functioning
- FIXED: Authentication in offline mode not functioning after upgrade in some cases
- FIXED: Provisioning a user delayed push authentication for other users
- FIXED: RADIUS returns access-reject response for authentication using MS-CHAPv2 as this protocol is not supported for Access-Challenge feature (Online Help corrected as well)
- FIXED: RADIUS not reporting failed authentication when attempting to authenticate a non-existing user
- REMOVED: Support for Microsoft Exchange 2007, Microsoft Exchange 2010, Microsoft Dynamics CRM 2011, Microsoft SharePoint 2010, Microsoft SharePoint Foundation 2010
