ESET Security Management Center version 7.2 in End of Life

2023-01-12 - Steef | ESET Nederland - Reacties (0) - Customer Advisories

ESET Security Management Center version 7.2 reached End of Life on December 31, 2022. All previous versions of ESET Security Management Center and ESET Remote Administrator (currently known as ESET PROTECT) have already reached End of Life.

In addition, ESET PROTECT versions 8.0 is in Limited Support and will transition to End of Life on June 30, 2023.

To upgrade your ESET product, perform an in-product upgrade or download the most recent version of ESET PROTECT (Recommended).

For more information about what will happen after the End of Life date, refer to the End of Life microsite.

For more information on ESET's End of Life policy, refer to ESET End of Life Policy for Business Products.
