Release announcement: ESET File Security for Microsoft Windows Server 7.3.12006.0 (Hotfix)

2021-04-23 - Mitchell | ESET Nederland - Reacties (0) - Hotfix

We have released a new version of ESET File Security for Microsoft Windows Server v7.3 and the installation binaries are available online on our global website and in the ESET PROTECT repository.

Changelog version 7.3.12006.0

- Fixed: Kernel conflict with Commvault File System archiving agent resulting in network shares inaccessibility until reboot.
- Fixed: Minor high-resolution display scaling flaw in elements of the graphical user interface.
