Download: https://www.eset.com/nl/zakelijk/server-antivirus/mail-security-exchange/download/

Changelog

- Changed: **Automatically reject messages if SPF check fails** option rejects an email only if the email hard-fails
- Fixed: Anti-Phishing crashes on emails with more than three nested Multipurpose Internet Mail Extensions (MIMEs)
- Fixed: IP address detection only displays the end-user's address
- Fixed: Quarantined mail reports are saved incorrectly
