- Product: ESET Server Security for Microsoft Windows Server - 11.0.12008.0
- Type: Feature release
- Availability: Global excl. Japan

Changelog:

- NEW: Firewall Support
- NEW: Vulnerability & Patch Management support
- NEW: ESET PROTECT Hub Support
- NEW: Support for SHA-256 file hash
- NEW: In-product support state informing according to End-of-life policy
- NEW: Extended generation of Automatic Exclusions with the use of arbitrary credentials
- NEW: eShell can now export data to .csv
- NEW: Support for forced check of product auto-upgrades via ESET PROTECT Console
- IMPROVED: Configuration export protected by admin rights needed
- IMPROVED: On-demand OneDrive Scan now provides more specific error description logs
- IMPROVED: ESET Cluster wizard now informs about the result of product activation on individual nodes
- IMPROVED: Imported configuration from cluster node (within synchronization) will have cluster as a source in the audit log

- CHANGED: Sending documents by default after enabling ESET LiveGuard Advanced
- CHANGED: The cluster menu option has been moved from **Tools** to the **Setup/Server** section
- CHANGED: Various user interface layouts in the **Setup/Server** and **Setup/Network** sections.
- FIXED: A problem where the product ignored new features that came with upgrade through automatic updates
- FIXED: A problem where incorrect language was set while deploying via GPO
- FIXED: A problem where an On-demand scan of the .tgz archive returned an “error reading archive”
- FIXED: A problem where it was not possible to start eShell under SYSTEM account
- FIXED: A problem with the error message: "The system failed to flush data to the transaction log" in the event viewer caused by real-time filesystem protection
- FIXED: A problem where a status message “Updates are available” could not be dismissed
- FIXED: A problem with the occasion of incorrect task logs informing about the failed scan that actually completed successfully
- FIXED: A problem where execution of signed batch file through eShell was not working properly
- REMOVED: Support of Microsoft Windows Server 2012
- REMOVED: Support of Microsoft Windows Storage Server 2012
- REMOVED: Support of Microsoft Windows Server 2012 Essentials
- REMOVED: Support of Microsoft Windows Server 2012 Foundation
- REMOVED: Support of Microsoft Windows MultiPoint Server 2012
